As a company dealing with various lots for sale within Bacolod City and in other parts of Negros Occidental, Dynamic Properties and Realty Corp. has made sure that they are able to give back to the community. They made sure that they get to live the Christmas spirit and show everyone who they really are as a company. The company has recently provided relief goods to the victims of Yolanda, particularly those who are living in Cadiz City. Led by their dynamic Officer-In-Charge, Mr. Rex De Asis, the whole troop went to the forlorn areas struck by the typhoon.

The company gathered goods of different kinds. There were sacks of rice that would help quench the hungry tummies of families. There were also cans of sardines that will help alleviate the craving for a decent meal of children and adults alike. There were other goodies that were included as well.

In fact, DPRC allotted two whole days, in order to be able to prepare the goods that they would be distributing in Cadiz City. They spent the entire Friday packing goods, ensuring that there would be a lot of families who will benefit. Each and every member of the DPRC team did their share in packing and sorting the goods.

The next day, everyone was in high spirits knowing full well that they will be able to help those who are in need with the goods that they would be bringing. As one family, they took the road towards Cadiz City, went to the affected areas and distributed the goods. Everything went well for the entire DPRC team. They surely went home satisfied that day. They knew that there were many families whom they were able to help.

This is what the company is all about. Dynamic Properties does not only offer lots for sale in Bacolod City, it also offers hope to people, especially those who are in need.
