Truth of the matter is that the difficulty in obtaining a residential real estate in the City of Smiles arises from the fact that the properties available may lack some of the basic specifications that you listed down. However, did you know that there is one real estate development that might just be able to meet most, if not all, of the specifications you laid down? Oasis Subdivision in Mansilingan, Bacolod City, a flagship project of the Dynamic Properties and Realty Corporation, has been designed to meet the exacting requirements and specifications of prospective homebuyers.

Oasis Subdivision was conceived after a lengthy study on the habits and most demanding needs of prospective homebuyers. The subdivision itself is divided into several phases, where lots of varying sizes and cuts are grouped to cater to specific needs of various demographic sectors. There are areas within the residential development that is designed to cater to mid-income earners. Usually, the lot sizes in this bracket range from 110 to 180 square meters. The houses available within this group are perfectly designed for newlyweds or families that are starting to make their own mark in the city.

They also have houses and lots designed for growing families. Oasis Subdivision model houses like the Martha is perfect for families that are looking for a place to settle down in Bacolod City. The main feature of this particular model house is that it has two floors, with the upper level having two bedrooms beautifully designed for you and your kids. The lower level has a single bedroom which could act as either a guestroom, another room for your other kid, or as the sleeping quarter of your house help.

The other house models include the Rebecca and Olivia. Aside from having two levels, these
